

"Richmond's Strictly Commercial Bank"

*The Bank Which Renders Active Assistance to
Merchants and Manufacturers Who Believe
In---Among Other Things---*

Richmond as a Reserve Centre

What we wish to emphasize at this time is not so much the growth, prosperity and strength of this Bank as the part it has played in the growth and expansion OF ITS CLIENTS. From the very beginning-- 1865--it has been our conviction that to be of the greatest help to its depositors a bank must go beyond the mere "routine" of banking business and take a LIVE, HELPFUL interest in your business, extending COURTESY, LIBERALITY and FAIRNESS to large and small alike. In this day of "EFFICIENCY" every business man should be on the constant lookout for the bank that rendered the greatest service.
